THE REAL MEANING OF THE WIZARD OF OZ, WHAT THEY HID FROM YOU

(OZ = Ounces of Gold. The Yellow Brick Road = The Gold Standard.)

They told us it was a children's story.

It was actually a warning about bankers, courts, corporations, and the legal fiction system.

Here's the truth:

THE STRAW MAN

Not a real man, a legal creation.
He receives a certificate instead of a brain…
just like we receive a Birth Certificate that creates the ALL-CAPS legal PERSON.

THE TIN MAN (TIN = Taxpayer Identification Number)

A soulless machine that works until it freezes and collapses.
The symbol of the worker who becomes "rusted out" by nonstop taxation and labour.

THE COWARDLY LION

Loud roar, no courage.
Just like politicians, judges and officials with titles but no true authority.

THE WIZARD

Smoke, fire, and a giant hologram head…
but behind the curtain is just a scared little man.

A perfect metaphor for modern government:

Illusion of authority
Backed by fear
No real power once the curtain is pulled back

THE WICKED WITCH (BAR & Policy Enforcers)

Controls the flying monkeys, the police.
Intimidation, threats, fear.
She melts when exposed to truth and lawful jurisdiction.

THE POPPY FIELD

Dorothy collapses — drugged.
The others don't — because they're not real humans.
A warning about Rockefeller medicine and mass sedation.

TOTO (Truth, Totality)

Toto = "in toto" = "the whole truth."
Small, unnoticed, but fearless.
Toto pulls the curtain and exposes the illusion.

That's why the Witch wanted him —
not Dorothy.
Truth is the biggest threat to the system.

THE VEIL IS FALLING

The Wizard of Oz wasn't fantasy.
It was a coded message:
- The banking system is an illusion
- Corporate government is a façade
- Courts are theatres
- The ALL-CAPS NAME is not you
- The real power was always yours

One small truth collapses the whole illusion.
