Document Topic Index

AI discussions (Grok, Gab, DeepSeek, Arya) by Jeffrey T. Maehr — main folder “Grok-Gab-AI-Complete” (top-level documents only)
14 unique documents · 35 main topics · 55 subtopics · 13 categories · Source index: November 1, 2026 · Revised November 7, 2026

How to use this index

Looking for the newer Gab / DeepSeek / Arya discussions? They have their own index: open the 1-Gab-DeepSeek-new-ongoing-discussions folder and look for the Topical-Index-Search-Document.

- **Find a subject fast:** the Topic Name List lists every main topic and subtopic alphabetically; click one to jump to it.
- **Topic Index:** grouped by category, then main topics A–Z, with subtopics indented beneath. Every subtopic lists *every* document that discusses it, with page numbers, in one place. Each page number opens the PDF at that page (`#page=N`).
- **Documents:** one entry per document — its opening question, its stated conclusion, its topics (names only; pages are in the Topic Index), and its section headings with pages. Identical copies posted under another file name are noted as “Also posted as”.
- Page numbers are actual PDF pages. Summaries quote the documents’ own words and describe what each dialog says.

Topic Name List (A–Z)

- Age of the earth / young earth (Evolution & earth's age)
- AI dialogs (Grok, DeepSeek, Gab/Arya)
- Air travel & flight
- Ancient civilizations & megaliths (Tartaria & lost history)
- Antarctica
- Antarctica & ice wall (Antarctica)
- Apollo moon landings (Moon missions (Apollo & Artemis))
- Atmosphere & vacuum
- Atmosphere layers (thermosphere, Karman line) (Atmosphere & vacuum)

Tartarian Architecture : Everything You Should

File: Tartarian Architecture _ Everything You Should Know.pdf · 13 pages

Question raised: "Know"

> **Document's conclusion** (p. 13): "Tartarian architecture, with its grandiose structures and intricate designs, offers a fascinating glimpse into a possibly forgotten civilization. The durability of its materials, the harmony of its symmetrical designs, and the richness of its decorative frescoes and mosaics all tell a story of advanced technological and artistic achievements."
